SPROCKET SCRAPER SET

FOR

TRACKSTER VEHICLES EQUIPPED WITH 7-TOOTH SPROCKETS

All Trackster vehicles now being shipped from the factory with 7-tooth sprockets will be equipped with a scraper set. This set will prevent the buildup of snow and ice on the 7-tooth sprocket.

It is imperative that all Trackster vehicles with 7-tooth sprockets be equipped with a scraper set. Scraper sets will be furnished no charge from the Service Department. Order Set No. 883073.

Scrapers will be included in all future orders of 7-tooth drive sprockets No. 882707. Scraper sets should be ordered for any 7-tooth sprocket sets in your inventory.

Failure to comply with this request may result in major and expensive damage to the vehicle.

A labor allowance of one hour per vehicle will be allowed when a claim, showing the model and serial numbers, is submitted.
