DRAIN PLUGS

Due to its location, many dealers and their customers are unaware of the engine compartment drain.

It is located to the rear of the right exhaust pipe and is accessible from the outside as shown in Figure 1.

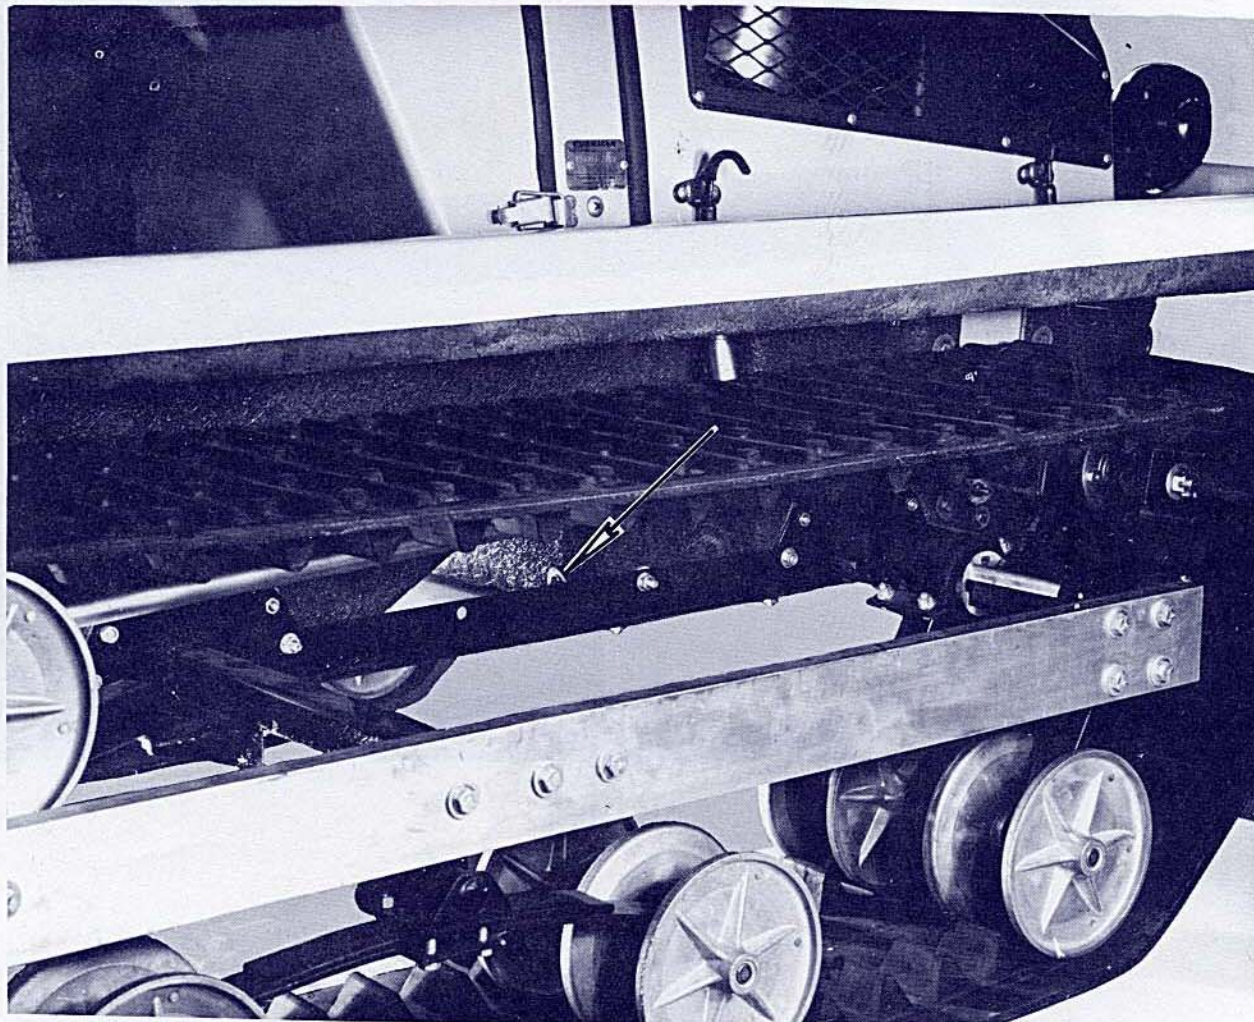

FIGURE 1

ADDITIONAL DRAIN PLUGS

Many dealers have received requests from their customers for additional drains. Any number of drains may be utilized. Check desired location for obstructions underneath, drill a 1" hole and use plug, Part No. 821274. Figure 2 shows a drain in the driver's area.
